

## Mid-Coast Texas Master Naturalist Hosts Native Plant Sale at HummerBird Celebration

**Rockport-Fulton, Texas** – Join us for the annual Native Plant Sale at the HummerBird Celebration, held at the Fulton Convention Center, 402 N Fulton Beach Rd, Fulton, TX 78358. The sale runs Friday, September 20, and Saturday, September 21, from 9:00 a.m. to 5:00 p.m., and Sunday, September 22, from 10:00 a.m. to 3:00 p.m.

### Benefits of Native Plants

Native trees, shrubs, vines, and perennials are low-maintenance, requiring less water once they are established. They thrive in drought and cold, attract hummingbirds and butterflies, and many are deer-resistant. Our team will be available to guide your plant selections.

### Watering Made Simple

Concerned about Stage 3 water restrictions? Establishing native plants is easy with our 3-2-1 hand-watering method:

- **Week 1:** Water 3 times
- **Week 2:** Water twice
- **Week 3:** Water once

### Plant Selection and Source

Choose from approximately 2,000 plants, including Texas natives from commercial nurseries, as well as hundreds grown by the Agriculture and Ecology Research Center of Formosa Plastics Corporation and our Mid-Coast Chapter members. This sale is the primary fundraiser for our chapter, serving eight counties.

### Visit Our Outreach Booth

Bring your family to our booth for kids' crafts and to learn about our conservation efforts.

### Get Involved

Discover more about the Mid-Coast Texas Master Naturalist Chapter and how to join at <https://midcoast-tmn.org/>.
