

Texas Master Naturalist Night at the Hooks – June 8

[<Rockport/Fulton, Texas>] – PLAY BALL!!! The Mid-Coast and South Texas Chapters of the Texas Master Naturalists are excited to announce the upcoming *Texas Master Naturalist Night at the Hooks* event on Sunday, June 8. Our chapters' members, partner organizations, and all friends of nature are invited to join us for an evening filled with conservation spirit.

The Chapters will be featured throughout the game with special recognitions and on-field activities, highlighting the great things we all do in coastal resource management. Someone will represent our chapters' great works in every aspect of the game. The gates open at 4:05 p.m., and the first pitch is at 5:05 p.m.

"Attendees can look forward to an exciting evening of baseball, networking, and fun. "This event is a fantastic opportunity for us to come together to support our conservation efforts while enjoying America's favorite pastime," said D'Ann Williams, Communications Director of the Mid-Coast Chapter. "We encourage everyone to wear their conservation swag and join us for an evening of fun!"

Discounted \$12/person tickets are available via a special link through the Hooks organization: <https://www.gofevo.com/event/Masternaturalists2>. For more information, please contact D'Ann Williams at communications@midcoast-tmn.org or give us a call at 214-334-7959.

The Texas Master Naturalist Program's mission is to develop a corps of well-informed volunteers to provide education, outreach, and service dedicated to the beneficial management of natural resources and natural areas within their communities for the State of Texas. Many communities and organizations rely on such citizen volunteers for implementing youth education programs; for operating parks, nature centers, and natural areas; and for providing leadership in local natural resource conservation efforts. In fact, a short supply of dedicated and well-informed volunteers is often cited as a limiting factor for community-based conservation efforts.

To learn more about our Texas Master Naturalist resources and opportunities or to get involved with your local chapters, visit: <https://midcoast-tmn.org/> or <https://txmn.org/st/>. You can also find us on Facebook.

For Immediate Release –05/19/25
